Kirami Firewood carrier

Kirami hot tubs and grills use lots of firewood and carring them around needs a firewood carrier.
This firewood carrier is convenient for carrying and storing firewood. You can also use the carrier to carry things other than firewood, as it also serves as an excellent magazine rack or kindling carrier. The firewood carrier can also be used as a decorative item near a grill, a fireplace or a hot tub, for example. The firewood carrier is delivered in parts and easy to assemble.
