

Kirami Premium Woody Tiny

Micu Red Cedar

Woody Tiny offers the authentic feel of wood in a compact size. It is our smallest solid-wood hot tub, ideal for both cute little gardens and patios. The hot tub's size and upgraded shape make Woody Tiny the optimum option for couples and settings where water consumption must be kept to a minimum. Thanks to the short heating time and small water volume, you can have a relaxing dip even on an otherwise busy evening. Woody Tiny offers everything you need for a great, wood-heated hot tub experience.

The new hot tub model was introduced in early March 2022.

MICU heater is a simple outside heater. MICU like the other Kirami heaters is made of high quality marine aluminium. The outer shell is made out of North American wood with excellent rot resistance. In time, the wood becomes a beautiful silvery grey.

The barrel diameter is 170 cm and water volume 760 litres. It is suitable for 1-2 people. The dry weight of the hot tub is 113 kg. The gross heat output of the MICU stove is 30 kW and the net heat output transferred to the water is 19 kW.

Technical Info

CAPACITY (PERSONS)	1-2
FILLAGE VOLUME	650
WATER CAPACITY	760 l
OUTER DIAMETER	170 cm
HEIGHT (TUB)	98 cm
DEPTH	85 cm
