

Kirami Ball valve kit for Kirami hot tub

Kit that can replace Kirami drain valve with traditional ball valve. The kit is suitable for most Kirami's plastic hot tubs, except Tiny.

The kit consists of three parts that are connected to the 2 ½ inch inside thread in a Kirami hot tub instead of the original Kirami drain valve. The hose connector in the kit can be used with the same kind of 38mm inside measured hose as the normal valve.
