

## Kirami Kirami FinVision Experience bathrobes

It feels nice to wrap yourself in something warm and light after a sauna or hot tub bath and keep enjoying the relaxing atmosphere. The Kirami FinVision Experience bathrobe features a wide hood that you can pull over your head. When not used, the hood drapes your shoulders beautifully, giving the bathrobe a refined look. The bathrobe features side pockets sewn into the seams that are inconspicuous but practical and deep for small items. The robe stays closed with a belt.

Kirami FinVision Experience bathrobes are comfortable, stylish and timeless. They are made of 100% cotton. Made of cotton, the bathrobes are breathable and they do not itch or irritate the skin. They can withstand plenty of use and washes thanks to their robust quality. The unisex bathrobe suits women and men alike. The sizes are as follows: S/M, L/XL and XXL/3XL. Please see the measurement table to check your size.

Did you know that dirt is not removed with heat, but with enzymes? Due to advancements in the development of detergents, temperature is now less significant than it used to be. You can wash the cotton waffle bathrobes at 40 °C without any worries; the temperature suits the material well and your washing machine uses less energy.

The bathrobes, towels and pefflettis of the Kirami FinVision Experience range were designed to have matching colours and thus create a harmonious colour scheme for your spa area.

### It is important to Kirami that we know where our products come from.

Kirami bath textiles are made in Portugal. Portugal is an EU country that is not classified as a high-risk country. In Portugal, working life is regulated by law, and the authorities also supervise compliance with the law. Portugal has ratified the ILO ([International Labour Organization](#)) Conventions. The principles of the ILO state that all of its member countries are obligated to eradicate forced labour, child labour and discrimination, and to guarantee freedom of association.

### How did Kirami FinVision Experience come about?

We feel that Kirami FinVision Experience reflects the essence of what Kirami products are about: sensations, pleasures, experiences. The starting point for the design of the logo was the idea of having the graphical style convey naturalness, enjoyment of life and genuineness, all of which are part of Kirami's DNA. The Kirami FinVision text is styled in accordance with the Kirami brand, complemented with the word 'Experience' in a cursive-like font at a slight angle. The font and its forward-leaning shape in italics, as well as its slightly diagonal positioning, reflect a human touch, freedom, carefreeness and creativity. Life is here and now, and we must be able to enjoy it. The full stop at the end symbolises an uncompromising attitude. Kirami always stands by its promises.
