SOLAR PANELS

*Less electricity,  
more sauna.*

*Kirami FinVision® -sauna Zero*

**HARVIA**

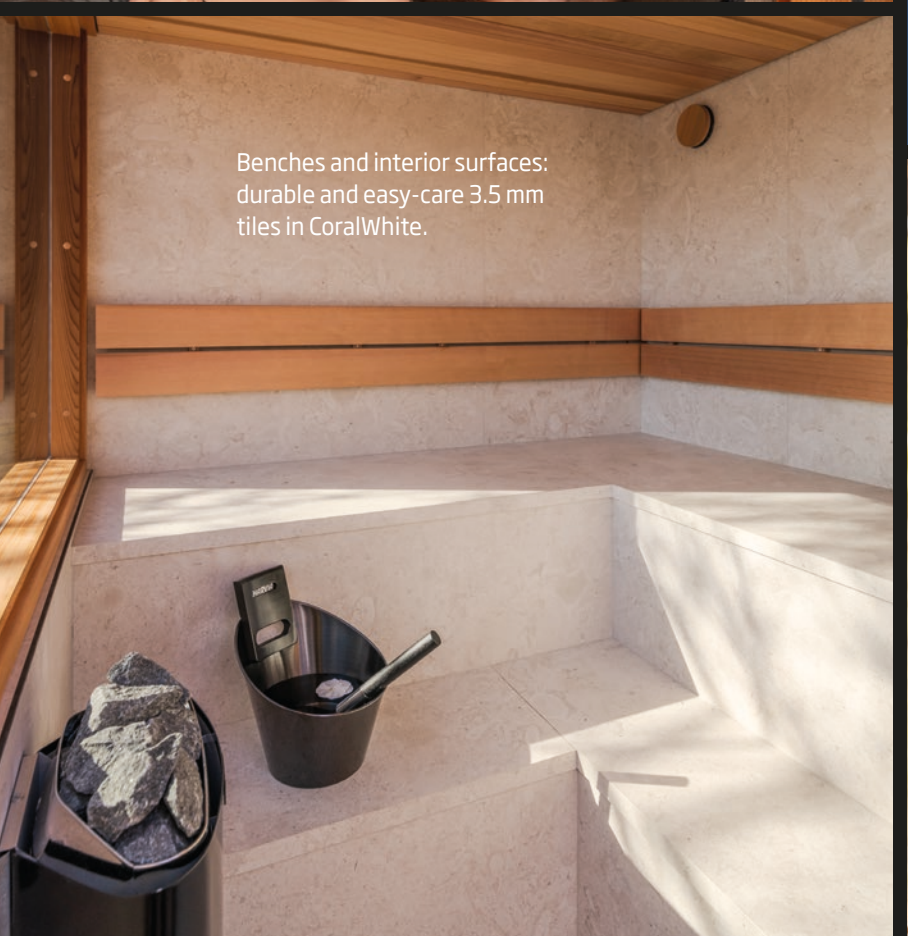

## *Design meets function*

Luxurious Red Cedar on door frames, ceiling, and window frames gives a refined finish.

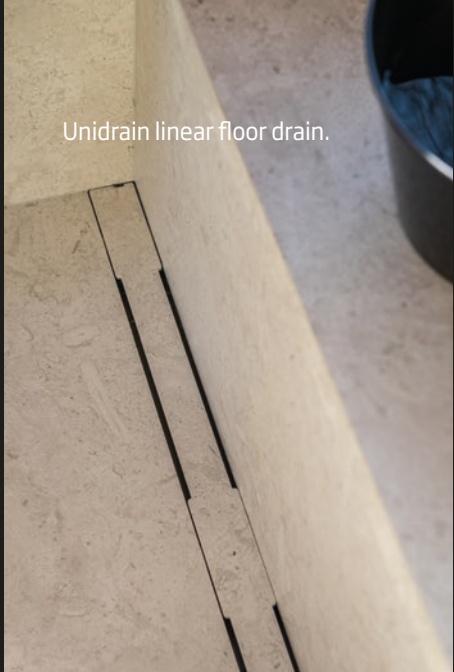

Benches and interior surfaces:  
durable and easy-care 3.5 mm  
tiles in CoralWhite.

The thermostat keeps the temperature steady.

Unidrain linear floor drain.

Exhaust air vent in the rear wall.

Triple-glazed thermal glass improves the sauna's energy efficiency.

Fresh air vent in the door.

# Kirami FinVision® -sauna M ZERO

*Kirami FinVision® -sauna M Zero is an energy-efficient outdoor sauna designed for 4-6 people. The well-insulated structure and 3.6 kW Harvia heater ensure comfortable steam sessions with minimal energy consumption.*

By default, the sauna is connected to the electric grid, but it can also be equipped with a solar power system as an optional accessory. With four solar panels and batteries, the sauna can be heated using electricity, solar energy, or a combination of both.

\*The volume does not exclude the space occupied by the benches.

## Kirami FinVision® -sauna S ZERO

*Kirami FinVision® -sauna S Zero is a compact and energy- efficient outdoor sauna for 3-5 people. The benches are placed along one wall, making the most of the smaller interior space. The 2.3 kW Harvia heater provides pleasant heat with low energy use.*

The sauna is designed to be connected to the electric grid, but can also be upgraded with a solar power system. In the S-sized model, the solar-powered version includes two panels and batteries installed under the benches. Heating can be done with electricity, solar energy, or both.

# *Kirami FinVision® -sauna M Zero Network*

*Save electricity with a low-energy sauna*

The Kirami FinVision® -sauna Zero Network is a ready-to-use outdoor sauna designed for 4-6 people. It is built to be as energy-efficient as possible without compromising the authentic Finnish sauna experience.

- Plug-and-play electrical connections
- Energy-efficient structure and 3.6 kW heater
- Insulated walls and triple-glazed windows
- Stylish combination of tile and wood surfaces
- LED ambient lighting
- Exterior colors: GlowBlack or Oak.
- Interior colors: CoralWhite or Oak

*Well-being for you and the environment*

*Traditional Finnish sauna experience  
- with modern style and innovative technology*

## *Kirami FinVision® -sauna M Zero Solar System*

*The first fully self-sufficient  
off-grid electric sauna*

Heat the sauna with mains electricity, solar power - or both. Thanks to the solar panels and battery system, the sauna can also be installed in locations without access to the power grid.

- Network connection, solar panels, and battery system
- Off-grid operation without mains electricity
- Fast-heating, energy-efficient Harvia Delta 3.6 kW heater
- Stylish ceramic exterior and interior surfaces
- Modern design and low-maintenance interior
- LED ambient lighting
- Exterior colors: GlowBlack or Oak
- Interior colors: CoralWhite or Oak

# *Kirami FinVision® -sauna S Zero Network*

*Compact in size, smart in energy use*

Kirami FinVision® -sauna S Zero Network is a compact yet comfortable outdoor sauna for 3-5 people. The energy-efficient structure, space-saving layout, and 2.3 kW heater make it ideal for smaller yards and lower power consumption.

- Plug-and-play electrical connections
- Energy-efficient structure and 2.3 kW heater
- Insulated walls and triple-glazed windows
- Stylish combination of tile and wood surfaces
- LED ambient lighting
- Exterior colors: GlowBlack or Oak.
- Interior colors: CoralWhite or Oak

Outdoor shower  
tower available  
as an accessory  
for all models

# *Kirami FinVision® -sauna S Zero Solar System*

*Small size, full independence from the grid*

Kirami FinVision® -sauna S Zero Solar System combines compact design with energy autonomy. With solar panels and a battery system, it can be used off-grid - yet offers the same relaxing experience and efficient heating as the Network model.

- Network connection, solar panels, and battery system
- Off-grid operation without mains electricity
- Fast-heating, energy-efficient Harvia Delta 2.3 kW heater
- Stylish ceramic exterior and interior surfaces
- Modern design and low-maintenance interior
- LED ambient lighting
- Exterior colors: GlowBlack or Oak.
- Interior colors: CoralWhite or Oak

*Which one you choose:  
Original Oak tone or a glossy  
black exterior - electric grid or  
solar panels and a battery system*
