*For the perfect
bathing experiences*

Kirami takes bathing pleasure to the next level

In 2018, we will present several new products that add to the bathing experience. The pergola, made out of beautiful and durable Red Cedar, can be fitted with curtains for privacy, and it also has a spot reserved for a fridge. The LED lights available for Kirami's translucent tubs create spa moments with a magical mood; another new feature are the stunning hardwood drink holders. Our Outstanding product family now includes the versatile Iron Monster frying plate, with which you can cook delicious food for even the largest crowds. You can find more new products in this catalogue.

Enjoy browsing our new product catalogue!

Kirami is the largest hot tub supplier in Europe. We provide our customers with high-quality wood-heated tubs and a wide array of different kinds of supplies and accessories. 5,000 tubs made by Kirami are sold annually all over Europe, and their popularity is growing constantly.

Kirami's mission is to offer top-quality and easy-to-use products that you can recommend to your friends. All of our tubs are manufactured by hand from carefully selected materials, and they are assembled at our factory in Sastamala, Finland.

Original

Kirami Original follows the origins of hot tubbing. The traditional and simple quality of our hot tubs is based on selected materials and finished work.

The Original product line has a suitable tub size for all bath loving groups. **Woody** tubs invite you to bathe in the arms of Thermowood and **Easy** plastic tubs will charm you with their ease of maintenance.

Kirami Original is purely Finnish.

Comfort

Kirami Comfort offers enjoyable bathing moments with minimum effort. These LDPE hot tubs are easy to clean and maintain. A good choice for an active hot tubber.

Cozy tubs combine strong structure, ergonomic design and a wide range of outside panel options.

As for the new **Family** hot tub, it is designed to take the needs of families, elderly people and disabled people into account by ensuring that getting into and out of the tub is as easy and safe as possible.

Premium

The products in the Premium series are Kirami's flagships. Their design, efficiency and comfort of use are of the highest quality.

In 2018, the Premium product family is expanding to cover other products in addition to hot tubs. Among the accessories, the striking Pergola is a stylish addition to the hot tub, and our new, elegant drink holders suit even the noblest of drinks.

The Premium products maintain their appealing looks year after year, even in challenging conditions.

For Premium spa moments

With the accessories in Kirami's Premium series, you can add a bit of luxury in everyday life and take your spa moments to a completely new level. The products made out of Red Cedar wood blend beautifully in with the scenery, maintaining their appealing looks despite time and weather.

LED-LIGHTS

As nights grow dark, the lights are lit and the mood brightens. The LED lights available for Kirami's translucent tubs create magical spa moments. The light glows beautifully through the material of the tub itself, and there is no need to make a hole in the tub. This product is also made in Finland.

TUBBAR DELUXE

The newest addition to the Tubbar series is stunningly beautiful and stylish. The elegant drink holder made out of Red Cedar wood suits even the noblest of drinks.

DRINK ARC

The Drink Arc, designed especially for stemmed wineglasses, conforms perfectly to the contours of the hot tub. The holder also acts as a convenient surface for other things besides wineglasses.

KIRAMI PERGOLA

Kirami's Pergola provides a lovely frame for the hot tub, offering many possibilities to create an elegant setting, rich in atmosphere. Among other things, curtains can be added to the pergola for privacy.

FRIDGE COVER

Cool drinks are naturally an essential part of a warm spa moment. With the protective frame that attaches seamlessly to the Pergola, you can integrate a fridge elegantly as a part of your comfortable spa centre - no need to go any further to get drinks! The fridge is not included in the package.

Comfort

Family

M
4-6

The Family hot tub has been developed to take the needs of children, elderly people and disabled people into account. In addition to practicality, its development has focused increasingly on safety. The new step makes it easier to climb into and out of the tub. You can also sit on the step, which makes the height of the tub more comfortable and relaxed for children and shorter people.

Family hot tubs have integrated drink holders on the both sides of the step.

High and sturdy Family step is good optional extra for the hot tub. You can climb in and out of the tub easier and a handrail gives additional support.

Heaters

All Kirami hot tub heaters are made in our own aluminium welding factory. The material is high-class AlMg3 marine aluminium, which is an excellent heat conductor. Every heater is pressure-tested for leakages before it leaves our factory.

*The heating durations presented here are estimates based on practical tests. The actual duration depends on the circumstances, the firewood’s quality, size and humidity, the intensity of the maintained fire and the rate with which new firewood is added.

Anode- Rod

Kirami’s magnesium anode rod protects your heater from corrosion. The rod is screwed to the place reserved for it in the heater, and it is replaced approximately once per year.

Colours and Materials

The Kirami hot tubs come in many different colour and material options. The benefits of plastic tubs include great hygiene and flexibility. Dirt and impurities come off easily from the smooth inner surface, which does not peel even after years of use, unlike in fiberglass tubs, for example. Plastic requires no maintenance, is UV-protected and can be used in any weather.

Inside colours and materials:

Outside colours and materials:

EcoPlank (EP)

Durable and maintenance free EcoPlank is made of recycled plastic.

Larch (L)

Larch is an environmentally friendly wood with natural rot resistance without any treatments. The appearance of larch with its tight grain, reddish brown heartwood and lighter sapwood is beautiful and unique.

Stained Spruce (ST)

Natural stained spruce panel. The beautiful brown tint will stay good-looking for a long time. We recommend re-staining every couple of years.

Thermowood (TW)

Original and natural heat treated pine panels have beautiful warm brown shade.

Red Cedar (RC)

Multi-hued, nearly branchless wood is very beautiful and becomes darker over time, into a more even grey hue. Top quality rot resistance.

*Dreams come true,
your own hot tub*

The Kirami hot tubs are easy to maintain, and installing them is very simple. Thanks to the EPS base, you can place the tub on almost every flat surface. The base of the tub can be stabilised with stone chips.

All hot tub models are delivered assembled: you only need to connect the heater to the tub with two rubber hoses. Once the chimney is in place and water is in the tub, the tub is ready for use.

*Heating a
hot tub*

The external heaters, manufactured by Kirami, are high-quality and easy to use. Fill the furnace with dry firewood that has been chopped into small pieces, after which you can ignite by using fire starter pieces. The hotter the fire-burning temperature is, the less visible smoke the wood will emit.

The heating is at its most efficient when you use a cover on the tub during the heating and maintain a large fire in the heater.

Using the heater is fireproof as long as you ensure that there are no flammable materials in front of or under the fire box. The stove will not heat up above the water temperature as the stove is surrounded by a water jacket.

*Enjoy clean
bath water*

Kirami hot tubs make cleaning exceptionally easy. It is recommended that you wash the tub from the inside after bathing, using biodegradable detergents, such as Biowash. Spray the cleaning agent on the tub's inside walls and rinse it off.

If you want to use the same water for a longer time, you need to use both chemicals and a filter. The water stays clean and hygienic for a long time only by using these measures together.

Ask your local retailer for more information. The availability of chemicals and filters varies depending on your location.

Hot tub Equipment & Accessories

26	Steps
27	Covers
28-29	Waterhygiene and washing agents
32-33	Drink holders and other accessories

Steps

All our step models are designed and manufactured by us. The strong structure guarantees safe passage to the hot tub and quality material will last for a long time, even in harsh weather conditions. Some models also come in different colours and made out of different materials. You can find more detailed information at our website: www.kirami.fi

Standard step

Stepin step

Step-Around

Curved step

Aluminium frame step

Delux step

Family step

Covers

You can find a high-quality cover for all your needs in Kirami's cover collection, ranging from extremely durable ASB covers to insulator covers suitable for cold conditions. All covers are locally made Finnish craftsmanship.

Insulated covers

The insulation covers can be folded, and they have a faux leather lining and aluminium reinforcements.

ABS plastic round cover

Suitable for tubs with a diameter of 170cm with an outside heater.

How to keep your bathwater clean

You do not need to change the bathwater in the hot tub after every use, but if you reuse the same water, special attention must be paid to water hygiene.

Keeping water clean consists of two aspects:

- Maintaining the physical cleanliness of water with a filter.
- Eliminating bacteria and microbes with water treatment agents.

Filtering

The filter is intended to clean the water from dust, leaves, the dirt caused by bathing, and other impurities. This is done by circulating the water in the tub through a filter. There are different types of filters, such as light filters suitable for smaller pools that use a filter cartridge, as well as more efficient filters that use either filter sand or filter fibre.

Chemical cleaning

The hot tub water can be cleaned chemically either with chlorine or active oxygen. The correct water pH value is maintained with pH- and pH+ granules. In addition, there are chemicals available for preventing algae growth and clarifying water.

Other cleaning

It is important to keep the hot tub clean even when it is not in use. Warm water and sunshine easily cause algae growth in the bottom and walls of the tub. The algaecide prevents algae bloom, and its use is recommended especially on hot summer days.

Small dirt particles may bypass the filter system, making the water in the tub look discoloured or cloudy. The small impurities in the water can be precipitated with a clarifying agent, which makes it easier to filter them out of the tub.

Washing Agents

It's important to keep hot tub clean also when it's not used. With Kirami's washing agents it's quickly and easily done.

Biowash, concentrate 5 litres

Biodegradable washing agent for cleaning and degreasing outdoor hot tubs and saunas.

Biowash, spray 0,5 litres

Pre-diluted, biodegradable washing agent for cleaning and degreasing outdoor hot tubs and saunas.

Sootwash, spray 0,5 litres

For removing soot and stubborn dirt from outdoor hot tub stoves, fireplaces and fireboxes

Relaxing in a high-quality hot tub is a pleasure in itself, but Kirami's high-quality accessories help you make the experience even more heavenly. Our range of products has equipment that improves the usability and comfort and makes the spa centre in your yard more stunning than ever.

*Make your spa moment
even more enjoyable*

Drink holders and other accessories

Kirami has plenty of different kinds of accessories and equipment that help you make your spa moments even more fun and enjoyable. Among other things, our range of products includes several new drink holders of different materials as well as bathing hats that help you relax further. Bathing hats keep you warm when it is cold, and during the summer they keep insects away from your head.

Outstanding

by KIRAMI

When guys get together. When form meets plain steel. When the passionate barbecuer gets together with the live flames. When the splashes of the soul meet the warmth of the tub. "Look, your evening is ready."

NOVELTY!

IRON MONSTER

The Iron Monster is a frying plate made out of sturdy rolled steel, and it can either stand on its own feet or be placed on the Roasty Boss BBQ grill. On it, you can fry juicy stakes for the whole party at the same time! This extremely versatile cooking implement acts like an old-style cooking range.

The grill in the middle of the Iron Monster can be detached easily, which allows you to poke the fire conveniently through the hole. In addition to cooking, the Iron Monster can be used as a fireplace to create the perfect mood.

The Roasty Boss is the dream for BBQ chefs who are passionate about cooking. The equipment is sturdy and durable in use, and there is plenty of space to make several dishes at the same time.

ROASTY BOSS

Roasty Boss is a heavy-duty BBQ grill, guaranteed to fill the needs of even the most demanding of cooks. A wide range of accessories from cooking and frying plates to grates.

Roasty Boss is the summer cook's right hand, cooking steaks simultaneously for even a larger company while a pot of potatoes boils on the side. The frame is made of weathering Corten steel, and the rest is stainless steel.

"Cooking with the Roasty Boss is an experience for all senses, and nothing beats the flavour of food cooked on an open fire!"

Top chef Jesse Söderlund, European Champion and member of the Culinary Team of Finland.

TIP:
Get the best results in all grilling with Outstanding charcoal or birch firewood!

NOVELTY!

LEATHER PATRON

This is no beer barrel cover – this is a truly stylish and manly apron, made out of thick antiqued leather of high quality, of course. A leather apron distinguishes the uncrowned king of the grill, and it makes an excellent gift.

FREEDOM

Freedom is a modern outdoor fireplace, which offers the flicker of flames and pleasant warmth for anything from garden parties to hot tub parties. The crowning glory of the garden is easy to assemble and move around the decking or patio for the pleasure of people enjoying the hot tub.

The body of the fireplace Freedom is made of weathering corten steel, which gains a rustic rust surface over time. The grid is made of stainless steel.

TRIHOLDY

Triholdy is a new, highly adaptable, outdoor decor sensation. The triangular elements can be combined to build an individual storage unit, partitions and firewood holders for the patio. Build a privacy screen or windbreak for the hot tub to match the style of your garden.

The Triholdy can be transformed into a green wall using different arrangements of potted plants. Or the triangles can be laid flat and used as a planter.

More information: **outstanding360.fi**

The story of Kirami

Kirami's story starts in 2001, when the first hot tubs were imported from Sweden. Our own production started soon after. The first premises were located at an old equipment shed, and the company started out with a small selection of a few tubs and one heater.

In 2006, we moved into larger premises, and the following year the product range expanded to cover hot tubs made out of ThermoWood as well as the even more efficient external TUBE heaters. At the same time we also purchased

another facility for component manufacturing and company administration. Next, we developed an above-ground swimming pool made out of ThermoWood and a compatible heater, and in 2010 we launched the kylpytynnyri.fi brand that included several affordable hot tub models and the inexpensive external CULT heater.

In late 2010, Kirami made the largest investment in its history. In it, we acquired our current premises, which have more than 3,000 square metres for serving our customers.

In the following spring, we launched a hot tub model with a plastic inner tub and a comprehensive selection of chemicals for keeping hot tubs and swimming pools clean.

In 2015, we decided to develop Finnish products of high quality for outdoor decoration and cooking. We came up with the Outstanding product line that focuses on BBQ grills, outdoor fireplaces and outdoor decoration made out of fashionable, robust COR-TEN steel.

WE ARE KIRAMI

The quality and good looks of Kirami's products are delivered by our skilled workforce, consisting of approximately 20 persons working at our Sastamala facility and 10 persons in our own aluminium shop. On top of that we also use a wide selection of local contractors. Our success is based on continuous customer-oriented product development, which focuses on making our

hot tubs as easy to set up and use as possible, providing customers with a comprehensive range of products and ensuring the availability of accessories and spare parts. We are also constantly searching for new long-lasting materials to use in our products. One of our most important criteria for choosing manufacturing materials is their recyclability.

As of 2017, Kirami Oy is the largest hot tub manufacturer in Europe. We supply over 5,000 hot tubs around Finland and Europe every year. Our turnover in 2017 was EUR 8.2 million, of which exports account for approximately 30%. Our reseller network has complete coverage in Finland, and we are constantly expanding our network of European resellers.

You have earned your luxury!

You can always recognise Kirami's products from their careful finishing touches. Kirami manufactures the hot tubs from high-quality and durable materials, offering various options to meet the customers' different tastes. The quality also includes the easy maintenance and the practicality of the hot tubs.

Starting the use of a product is simple and easy. Service is taken care of so that the customer can have memorable, high-quality experiences in the Kirami tubs, regardless of season.

Customer satisfaction is our greatest resource!

Good to know

Ordering Kirami products

How to get a Kirami Hot Tub?

Kirami has more than 20 resellers all over Europe. You can find your nearest reseller on our website: www.kirami.fi.

The resellers will give you an offer for the products you choose. Time and way of delivery depend on the product you wish to have. The delivery of the tub can be arranged for the requested address.

User manuals

Each hot tub and heater includes a user manual. You can also download the latest user manuals from our website.
